A Little About Me

I'm a research scientist at the University of Washington in Seattle. I work primarily on biochemical aspects of drug discovery for neglected diseases such as malaria. In addition, I use songs about science and math as a means of engaging students and others interested in these topics. My websites are singaboutscience.org, faculty.washington.edu/crowther/, and gregcrowther.com. I'm also accessible via Twitter (@trappedinlab) and email (crowther@u.washington.edu).
